

2011 **Tour**

2011 Tour

If you are a motor home enthusiast looking for a high-end Class A diesel coach, the 2011 Winnebago Tour® is the one for you. For 2011, this flagship diesel pusher features a striking new exterior design and an equally stunning interior with a new dash design, stylish furniture and the introduction of the all-new tag axle 42QD floorplan. Featuring the Maxum® chassis with a

400* horsepower Cummins® ISL engine, each Tour floorplan offers upscale amenities, innovative user-friendly features and maximum comfort. The new 42QD is joined by another tag axle model, the 42AD, and two floorplans with full-wall slideouts that are spacious beyond comparison. The 2011 Winnebago Tour isn't just a motor home, it's a lifestyle. Make it yours.

* 2010 EPA emissions-equipped 450-hp ISL engine with adjustable brake and accelerator pedals - Fall 2010 production

One Word: Wow

How spacious is the 2011 Tour? So spacious we were able to include our exclusive extendable sectional sofa in the 40BD, 42QD and 42AD. It's perfectly positioned for watching the 40" LCD TV and experiencing dynamic surround sound from the home theater sound system. The King-Dome® in-motion satellite system is available for additional channels on the road while the HD video selection system lets you choose which TV you want to watch. For even more programming flexibility, choose the "Your HD" compatible satellite receiver (requires the available King-Dome in-motion or automatic satellite system) and you'll have the ability to turn your DISH Network® service on and off as you desire—an RVer's dream come true.

Don't overlook the stylish interior with residential highlights such as ceramic tile flooring and striking coffee-glazed wood cabinetry. The available electric fireplace in the 40BD, 42QD and 42AD add to the welcoming ambiance. MCD American Duo® roller shades with blackout and solar screens give you total control over light and privacy levels. You'll enjoy maximum interior climate control on warm days thanks to the three powerful cooling units that comprise the TrueAir® Maximum Comfort air conditioning system.

42QD Cumberland with Coffee-Glazed Forest Cherry

Rest Easy®

Rest Easy® Sofa The Rest Easy multi-position sofa slides from couch to lounge to bed at the press of a button.

Extendable Sectional Sofa The extendable sectional sofa easily expands for guests in the 40BD, 42QD and 42AD.

Recognized Quality The Recreation Vehicle Dealer Association bestows its annual Quality Circle Award to the manufacturers that provide exceptional products, service and support. Only one manufacturer has received this honor for fifteen consecutive years: Winnebago Industries.®

GoWinnebago.com

The Gold Standard

The Tour galley is a true gem with Corian® solid-surface countertops, full-extension drawer slides for more spacious storage and upscale residential appliances such as the microwave/convection oven or the available microwave/speedcook oven. Corian sink covers, a matching backsplash and a glass top over the recessed range make clean-up easy while expanding your prep space. Add the central vacuum system for even more convenient cleaning power. The Aqua-Hot® dual zone hydronic heating system delivers a continuous flow of hot water, in addition to providing state-of-the-art zone heating throughout the coach. Enjoy your meals at the dining table/buffet or the BenchMark® dinette (available 40BD). The dining table/buffet has a Corian solid-surface top, additional storage and expands for seating guests.

42QD Cumberland with Coffee-Glazed Forest Cherry

Refrigerator This elegant residential stainless steel refrigerator with french doors and a freezer drawer is available in all models.

Dishwasher The available drawer-style dishwasher is perfectly sized to accommodate larger plates.

Pull-Out Island The pull-out island in the 42QD adds counter space and houses plenty of additional storage.

Relaxing

The perfect bedroom starts with the perfect bed. In the Tour 40CD, 42QD and 42AD, that means a powered king bed that lets you elevate your head for reading or watching TV and the Ideal Rest® Digital Comfort Control mattress with dual firmness controls (powered queen bed with Ideal Rest available 40BD). From the bed, you are surrounded by amenities, including an LCD TV and a ceiling fan. The bedroom stereo system includes a CD/DVD player, iPod/MP3 input, headphone jack and built-in alarm clock. The 40CD and 42QD take the master bedroom concept even further by including a private master bathroom in the rear of the coach complementing the half-bath mid-coach.

Storage A large wardrobe and a chest of drawers let you fully pack for all of your adventures.

Master Bath The 40CD and 42QD offer the privacy of a master bath in addition to a half-bath mid-coach.

Washer/Dryer Laundry is never a hassle when you select the available washer and dryer.

Settle In

The Tour lives up to its name as the perfect touring coach. It starts with the comfort of UltraLeather™ power cab seats with available heating elements. The passenger seat includes a footrest and can be upgraded to an oversized seat. And, no matter who is driving, the tilt/telescoping SmartWheel™ adjusts to the perfect position.

But the star of the show is the RV Radio® with a 6.5" LCD touch screen that also acts as the monitor for the rear camera and sideview cameras. The RV Radio includes a CD player, weather band and iPod/MP3 input. You can also add Sirius® satellite radio, which includes a receiver, docking port, iPod interface connector and a complimentary six-month subscription.

Cab Seats The cab seats feature UltraLeather, adjustable lumbar support and six-way power adjustments. The available heated seats provide added comfort on cool mornings.

Power Shade The powered MCD American Duo front roller shade features a separate blackout and solar screen. It also functions as a sun screen.

Touch Screen The RV Radio also incorporates the rearview monitor and available sideview camera functions into this dash touch screen.

GPS You'll always know where you are and where you are going by adding the in-dash GPS that includes a 7" monitor with split screen function, voice guidance, two remotes and Bluetooth® compatibility.

Built for the Long Haul

The Maxum chassis has up to 220 cubic feet of exterior storage that lets you bring along more of your gear than you ever thought possible. Thanks to innovative storage solutions such as movable panels and an available sliding tray, storing and accessing your gear is a breeze. The sliding tray option comes with a 6' table with folding legs that is perfect for picnics and tailgate parties.

When you arrive at your destination, hookups are quick and easy with connection points located in a centralized service center. The QuickPort® service connection hatch allows the bay door to close even with hoses connected. The 3-Position Controls for the HWH® hydraulic leveling jacks provide control from the service center, entrance door and cab so you can monitor the jacks as they lower into position.

Portable power is provided by the 8,000- or 10,000-watt Cummins Onan® Quiet Diesel™ generator. It includes the automatic generator start system that starts the generator based on a preset indoor temperature or time of your choosing to run your TrueAir Maximum Comfort A/C or charge your batteries.

OnePlace Everything in its place. This systems center lets you monitor and control key systems from one convenient location.

Rearview Mirror Extra large mirrors provide a great view of the road behind you and include built-in turn signals.

Service Tray The available storage tray slides out both sides of the coach for easy access to stored items.

Entertainment Center Choose the available exterior entertainment center with a 32" LCD TV and DVD player to enjoy movies under the awning.

Service Center Color-coded labels make for easy hookups in the convenient service center.

Set Your Coordinates to Maximum Comfort

For years, TrueAir set the standard in RV air conditioning. This year, we're raising the bar with the TrueAir Maximum Comfort A/C. It's the best TrueAir system yet, employing next-generation technology to provide unparalleled climate control and comfort:

Three high-efficiency, low-profile roof-mount cooling units deliver unsurpassed cooling power

D-shaped formed ductwork optimizes airflow

Dual-zone thermostat offers precision cooling

Infinitely adjustable ceiling vents provide finite control

For complete details on the new TrueAir Maximum Comfort A/C, visit the key features section at GoWinnebago.com.

Floorplans & Specifications

Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas. Floorplans and specifications are also available online at GoWinnebago.com.

- 10,000-lb. Hitch⁶ (40BD & 40CD)
- 15,000-lb. Hitch⁶ (42AD & 42QD)
- NeWay® Air Suspension
- Battery Disconnect System

The perfect diesel pusher experience begins with a chassis designed like no other. Winnebago Industries engineers worked closely with Freightliner®—the proven leader in diesel motor home chassis—to create the Maxum Chassis: a stronger, better performing chassis with a lower center of gravity for unsurpassed ride and handling.

To top it off, the Maxum Chassis offers up to 220 cubic feet of exterior storage so you can load up with everything you need for weeks on the road.

MAXUM CHASSIS

The secret is its revolutionary lowered-rail design combined with our exclusive SuperStructure® construction and SmartSpace philosophy that increases the cross-coach storage height for the most efficient use of space.

Superior ride, handling and performance along with unsurpassed storage—the Maxum Chassis is the defining standard in diesel pusher performance.

The Maxum Chassis is backed by a 3-year/50,000-mile limited warranty, including towing and roadside assistance and more than 400 North American service locations, 93 Freightliner RV Oasis locations and a 24/7 help line.

No Shortcuts – No Compromises

You can compare features. You can compare styles. But when it comes to quality construction, there is no comparison. Only motor homes manufactured by Winnebago Industries harness the legendary strength and durability of our SuperStructure construction process—a process we've been perfecting for more than 50 years.

SuperStructure means a solid framework, steel and aluminum substructures and components built in-house to our exacting standards. It means managing each detail to ensure the integrity and quality of every coach. It means barcoding parts to save time during service and running every coach through a gauntlet of tests, including a high-pressure water test, before it leaves the factory.

Where other manufacturers cut corners, SuperStructure ensures the features you can't see are treated with the same care as the ones you can. When you buy a Winnebago motor home, you are getting a coach that is built for you—and built to last.

The crowned, one-piece **fiberglass roof** is backed by a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength and durability over less attractive rubber roofs found on so many competitive models that can streak and degrade over time.

Durable, lightweight **Thermo-Panel® sidewalls** combine fiberglass, high-density block-foam insulation and the inner wall surface with aluminum support structures.

Metal substructures secure cabinets and appliances to add safety and stability.

An **electrodeposition coating** helps protect critical steel components.

SUPER STRUCTURE

Specially engineered **interlocking joints** connect the floor, sidewalls and roof into a cohesive unit.

10,000-watt Cummins Onan Quiet Diesel generator (42QD, 42AD)

AC/DC electrical distribution system

4 maintenance-free AGM (Absorbed Glass Mat) sealed batteries (6 batteries w/optional french door refrigerator)

Battery disconnect system (coach and chassis)

Automatic dual-battery charge control

Shoreline/generator automatic changeover switch

Solar panel battery charger

Chassis battery charger/maintainer

Automatic generator start system

OPTIONAL EQUIPMENT

Power cord reel

10,000-watt Cummins Onan Quiet Diesel generator (40BD, 40CD)

PLUMBING SYSTEM W/QUICKPORT & QUICKCONNECT®

Service Center: lighted, pressurized city water hook-up w/diverter fill, fresh water drain, drainage valves, exterior wash station

w/pump switch, glove holder, black holding-tank flushing system, paper towel holder, portable satellite dish hookup, 20' sewer hose, soap dispenser

TrueLevel™ holding-tank monitoring system

Winterization Package: water heater bypass valve and siphon tube

Full coach water filtration system

Permanent-mount LP tank w/gauge

On-demand water pump

Heated holding-tank compartment

OPTIONAL EQUIPMENT

Water supply hose w/reel

SAFETY

Seat belts

Child tether seat anchor (40BD)

LP, smoke and carbon monoxide detectors

10 BC fire extinguisher

Ground fault interrupter

Daytime running lamps

Fog lamps

High-mount brake lamps

WARRANTY⁷

**12-month/15,000-mile basic warranty,⁸
36-month/36,000-mile limited warranty on structure,⁹
10-year limited parts-and-labor warranty on roof skin⁸**

- ¹ The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
- ² Tour floorplans feature a wide-body design – over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- ³ The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.
- ⁴ Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
- ⁵ Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- ⁶ Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR, as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
- ⁷ See separate chassis warranty.
- ⁸ See your dealer for complete warranty information
