

The Lightest True 4-Season Campers

2-Piece 'No Leak' Fiberglass Construction

Industry Leading 6-year Warranty

Personal Care & Quality Workmanship

NORTHERN *Lite*

Why Northern Lite

Northern Lite brings over 30 years of experience into building the lightest and highest quality true 4-season truck campers on the market. Northern Lite is known throughout the RV industry for our quality, workmanship & the high end fit and finish on all of our products.

Northern Lite truck campers are built using a 2-piece fiberglass construction which eliminates unnecessary seams to ensure that, even in the most extreme weather conditions, you and your family will remain warm and dry inside of your camper. Every Northern Lite is built with comfort in mind. Our interiors feature durable hardwood cabinetry, plush seating area cushions, ample headroom throughout, top end appliances, and a full-sized queen bed in the above cab sleeping area. When Mother Nature forces you to stay inside of your Northern Lite camper, you won't mind one bit!

All Northern Lite products carry an inclusive six-year structural integrity warranty. When you buy a Northern Lite camper you not only receive the highest quality truck camper on the market but you also receive peace of mind knowing that if there is an issue, our industry leading warranty backed by our personal care and service will be there to make things right.

Built for Adventure

4-Season Comfort from
Canadian Winters to Arizona Summers

3 Series to Choose From

Limited Edition... *The ultimate in luxury and comfort*

Special Edition... *True 4-season camper loaded with features*

Sportsman Plus Edition... *The lightest true 4-season camper on the market*

3 Sizes for Long and Short Box Trucks

8-11

Built for short box 3/4 ton and 1 ton trucks, the 8-11 is the lightest true 4-season truck camper on the market and comes in both wet and dry bath.

- Overall Length: 195"
- Overall Floor Length: 108"
- Overall Width: 98"
- Interior Headroom: 6'4"
- Overall Height: LE 100", SE/SP 94"
- Center of Gravity: 39.5"
- Truck Box: Short

9-6

Built for long box 3/4 ton and 1 ton trucks, the 9-6 is designed to maximize space and handling capabilities. The 9-6 has the shortest overhang of our three sizes.

- Overall Length: 198"
- Overall Floor Length: 111"
- Overall Width: 98"
- Interior Headroom: 6'4"
- Overall Height: LE 100", SE/SP 94"
- Center of Gravity: 42.5"
- Truck Box: Long

10-2

The 10-2 is our roomiest truck camper for 3/4 and 1 ton trucks, including our largest wet and dry baths, ensuring maximum comfort.

- Overall Length: 218"
- Overall Floor Length: 131"
- Overall Width: 98"
- Interior Headroom: 6'8"
- Overall Height: 106"
- Center of Gravity: 48"
- Truck Box: Long

10-2 Limited Edition
Long Box Truck Camper

Top 10 Reasons to Buy a Northern Lite Slide-In Truck Camper

"Our mission is to design and build the lightest, most durable and aerodynamic, true 4 season truck campers equipped with standard features that are both practical and useful."

-Keith Donkin, President

1

2-Piece Fiberglass Construction

Our two-piece Fiberglass Clam Shell truck camper design is built like a boat with only one seam, ensuring a leak proof camper no matter what Mother Nature throws at you.

2

25% Lighter

Northern Lite fiberglass truck campers are built with chopped fiberglass and matting so no additional wood or aluminum framing is required. This process makes our slide-in campers 25% lighter than conventional truck campers and results in the campers not being top heavy like most other conventionally built truck campers.

3

6-Year Structural Warranty

All Northern Lite Slide-In truck campers come with our industry leading six year structural warranty. As well, we build the only 5-Star rated Slide-in truck camper in all of North America!

4

Solid Hardwood Cabinets

All Northern Lite truck campers are built with solid plywood cabinets using solid hardwoods and paneling. No press board or photo finish panels are used. Nine-ply Russian Birch is used in all drawers with full extension roller bearing drawer glides.

5

4-Season Insulation

All models are insulated using block foam insulation on the floor, walls, and ceilings with double insulation under the cab over bed. Our 4-season truck campers will keep you toasty warm on a ski trip in a frigid Canadian winter and cool in the summer while boondocking in the middle of Arizona!

6

Actual Weight

Unlike our competition, our campers actually weigh what we say they weigh not what we wished they weighed.

7

Under Mounted Jacks

All jack brackets are under mounted (both front and rear) so the entire camper is lifted instead of putting all the stress on the front and back walls. The brackets are made of aluminum so they won't rust.

8

Molded Design

Northern Lite truck campers molded design improves aerodynamics, which results in better fuel mileage and handling. As well, the molded design creates roof corners and edges that won't leak like our competitors.

9

Easy to Maintain

High end gel coat finish along with only one seam makes it a very easy truck camper to maintain. With a little bit of annual maintenance your Northern Lite will continue to look like new for many years.

10

Top of the Line Standard Features

All Special Edition and Sportsman Plus models come standard with 2-100 watt panels while the Limited Edition models come with 2-200 watt panels. All three series come with 30-amp digital solar regulator, LED lighting inside and out, electric jacks, aluminum bumper steps, thermal pane windows and skylights.

Special Edition Series

The Special Edition series is Northern Lite's most popular series of 4-season truck campers. Not only are they significantly lighter than any 4-season camper from any competitor on the market, but they are loaded with features and built with over 30 years of experience which has gone into designing every detail.

With 5 models to choose from, and numerous standard features, there is a Special Edition to meet all of your camping and adventure needs.

- 10' Side awning
- 7' Power rear awning
- Dual 100 watt solar panels
- Wireless electric jacks

What Goes into Building Every Northern Lite?

Two-Piece Fiberglass Construction

Northern Lite Truck Campers are built using fiberglass molds in a process similar to building a fiberglass boat. After a layer of Gelcoat is applied to the interior of the mold, a mixture of “chopped” fiberglass strands and a plastic resin is sprayed on top of the Gelcoat to form a very rigid, strong and light weight molded shell.

Once both the top and bottom are pulled out of the molds, the top shell is placed over the bottom shell which has a plywood lip along its top.

The top is screwed onto the bottom shell through this plywood lip. Using a metal molding, a vinyl insert is then used to cover up stainless steel screws.

Built with Pride and Craftsmanship

The truck camper then proceeds to the assembly line where openings for doors, windows and exterior compartments are cut out and assembly begins.

As the truck camper moves down the assembly line, cupboards, cabinets and appliances are installed and the exterior is completed.

All cabinetry is built using solid hardwood, no photo finish, in our onsite wood working shop, ensuring the highest quality fit and finish.

Inspected and Tested

At the Final Inspection station, final finishing is completed and quality and systems checks are carried out.

Air pressure testing is the final test before the truck camper leaves assembly line.

Before it leaves the Northern Lite Factory, each truck camper is individually weighed and the actual weight is noted inside the truck camper.

The finished truck camper is now ready to ship to one of our over 45 Authorized Dealers throughout North America.
